## Poly-Cap

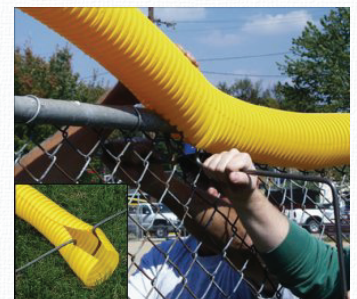

### Product Specifications

- ▶ available in the trademarked bright "safety" yellow, black or forest green
- ▶ available in 100' or 250' rolls
- ▶ manufactured with the thickest wall creating unequalled durability
- ▶ weather-treated and UV protected
- ▶ 4½" diameter polyethylene construction will offer years of protection
- ▶ it is recommended to secure Poly-Cap with optional matching ties every 3 feet, see item #01649
- ▶ limited 2-year warranty
- ▶ completely recyclable

Poly-Cap is an inexpensive way to add safety, reduce player injuries, increase visibility, and beautify any field. Poly-Cap is the original fence cap and still the best! Compare Poly-Cap to the competition and you will find it to be 20% thicker! Be cautious with thinner-walled materials that have a more dull and pale appearance; sunlight will penetrate easier and become brittle & deteriorate much quicker.

Please note: the black color is NOT a standard black drain tile, it contains special UV inhibitors to protect it from deterioration from the sun, however these darker colors (black & forest green) are more susceptible to sun damage as opposed to the original yellow color.

250' rolls have shipping dimensions of 64" x 64" x 25" and weigh 85 lbs per roll.  
100' rolls have shipping dimensions of 44" x 44" x 27" and weigh 35 lbs per roll.
